

Meritor Part

Meritor Parts - The Meritor Business is a leading global supplier established upon one hundred years of tradition of service and quality. Meritor concentrates on integrated systems with various modules and components to the original machine manufacturers and aftermarket equipment within the industrial and transportation trades.

Meritor values the needs of their clients to ensure their success while priding itself in the company's unique energy and believes this output of energy to be their competitive advantage in their global operations. Meritor starts with a tradition which values diversity of individuals and their broad thought processes. Operating in 19 nations and hiring over eleven thousand two hundred individuals, Meritor promotes innovation and collaboration amongst a team of experienced professionals.

Meritor strongly believes in just hiring future focused people. These top-caliber individuals can quickly adapt to changing surroundings and freely exhibit the level of performance and commitment considered necessary to attain results for the competitive market environment. The business empowers their teams to make sound business decisions so as to improve the overall success of the company. In return, Meritor offers their workers various opportunities for personal and professional growth.

Their Advanced Engineering team is at the forefront of parts and system engineering that comprise axles, drivelines, suspension and braking systems designed for heavy duty and medium trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is growing. They opened a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives that represent the entire Asia Pacific region. This team is also responsible for supporting the needs of their international engineering employees.

Meritor's dynamic and customer focused Quality team is committed to ensuring optimum processing at their aftermarket distribution facilities and production plants which are located all over the world in 19 countries and in 5 different continents.

The supplier development network is specifically located so as to support new business development. Regional teams are supported by global centralized specialties, initiatives and quality systems in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a data-driven, fact-based approach to decision making in every part of the company. The DFSS or also referred to as Design for Six Sigma ensures product reliability in every region. The team is also comprised of transactional Green Belts who use Six Sigma tools to business methods and apply lean methods.
