

Clark Forklift Part

Clark Forklift Parts - At this time, there are no less than 350,000 Clark lift trucks performing globally, and upwards of 250,000 operating in North America alone. With five major lines across the world, Clark is proud to be one of the most expansive organizations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand powered trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, covers more than 120,000 specific components intended for 20 unique models of lift trucks and automated equipment. Your regional Clark Dealer is your complete source for availability of all your components requirements supplied by Clark Totalift.

Clark's phenomenal Parts Distribution Centers are conveniently located in Louisville, Kentucky, which serves both their consumers and sellers in North America, and Changwon, South Korea, which handles their Asian dealers and consumers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing manufacturers. Driven to provide the highest level of value and service to our users, Clark remains on the leading edge when it comes to enhancing productivity and benefiting performance.

Clark Totalift has a really impressive international support network. With over 550 locations globally, dealer representation in over 80 nations and 230 locations in North America, their high level of commitment to their clients predominates the material handling industry.

Clark proudly remains an innovative leader of the industrial equipment industry, revolutionizing safety features such as the operator restraint system. This exceptional commitment to safety is now a standard feature on every lift truck.

Clark has a relentless mission to possess the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be internationally certified with quality standard ISO 9001 in all of its manufacturing facilities. Additionally, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be ready for any environmental limitations, thus placing them in a prevailing industry position.

Clark has selected the system of "Lean Production" at all of its assembly plants because this technique is particularly economical and permits minimal use of resources. Developed to ensure maximum proficiency, this system is intended to discover and acknowledge the most efficient ways for manufacturing facility management. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers communicate together to enhance the efficiency and excellence of their merchandise while minimizing expenses. The contemporary value engineering program combines progressive product growth and delivers improved customer support and service within the industry.
